

Time-Lapse Work Zone Cam Shows Grace Farms Taking Shape In New Canaan

by Daily Voice 02/08/2016

NEW CANAAN, Conn. — Grace Farms, a community center on 80 acres of open space in New Canaan, is a place where people can immerse themselves in nature, encounter the arts, pursue justice, foster community, and explore faith.

The project, which was years in the planning, opened last October. Viewers can now witness the transformation of Grace Farms with Work Zone Cam's newest time-lapse movie. Progress for this beautiful and unique project was captured from September 2013 to October 2015 with stunning HD imagery.

Work Zone Cam worked with Project Manager Paratus Group to document construction progress for this space, including the central building, The River. Designed by SANAA, The River is named in reference to its ribbon-like roof that appears to flow seamlessly across the peaceful landscape.
